

media portal

background

Together with the students André Freitag and Andreas Hubel, I developed an automated workflow for lecture recording.

You can find the project at:

<http://media.net.in.tum.de>

your task

Get familiar with the system, maintain, and improve it (e.g. better rating algorithms, ...).

time

Continuous job. E.g. 4h/ week.

required

Shell scripting, ffmpeg, php, Javascript.
Willingness to work on the task for some semesters.

If you are interested in the topic send me an email explaining why you are suitable for the topic. Then we can make an appointment.
